FLIP FOR THE MEANINGS!

BLACK TULIP

The black tulip represents power, elegance and a tad of mystery. You are someone who instantly commands every room you walk into and who inspires everyone you meet. Many admire your striking appearance and how you maintain your composure in the toughest times, but deep down, you also have a softer side that you only reveal to those closest to you.

LAVENDER

The scent of a lavender is known for its relaxing powers—powers which you embody perfectly. Your sincerity, thoughtfulness and calm energy makes it easy for people to love you. People can count on you to de-escalate a conflict in times of crisis, and you are always there to lend a listening ear, helping hand or word of advice.

ORCHID

In cultures across the world, orchids are gifted to loved ones as a symbol of refined beauty. On the outside, you are sophisticated and put together. On the inside, you have great taste (maybe vintage?) and are full of genuine care for your friends and family. While it may take some time to get to know you, the relationships you forge are meaningful and long-lasting.

DAISY

Being around a daisy is always a blast! You have a young spirit and a happy-go-lucky attitude. You never shy away from an adventure (hiking, anyone?) and are always making others laugh. People can underestimate your intellect, but those that truly know you understand that there is more that lies beneath your bubbly exterior.

FORSYTHIA

The luminous gold of a forsythia conveys undying optimism and affection. You are a glass-half-full people person who uplifts others with a kind word or witty line. You've got major creative energy and serious talent that people cannot help but admire. It takes time for people to earn your love, but once they have it, your love is unconditional.
